Required Course Materials

Provided by the instructor, *Así es la vida: Lecturas y escritura* by María de los Angeles Amador and Raysa Elena Amador

Course Description

This course emphasis on advanced functions of language. Participants will practice listening, speaking, reading and writing skills in Spanish. Participants also learn about culture and are introduced to literary selections.

Course Objectives

This session will follow a communicative approach that will enable you to advance in your listening, speaking, reading and writing skills in the language, as well as in their cultural understanding of the Spanish-speaking world. You will be exposed to cultural information on particular countries or regions of the Spanish-speaking world along with activities designed to develop their reading and writing skills.

Preparation and participation

Each participant is responsible to read the assigned materials and to come prepared. Each participant is responsible for preparing all aspects for each lesson (readings, grammar, vocabulary, exercises) for the assigned day. It is suggested that you study daily.

Our environment

A meaningful learning process takes place an environment in which each learner feels free to take their time, make mistakes and learn from these.

This implies, among other things:

- Using the target language.
- Refraining from using English unnecessarily.
- Paying attention to whoever is speaking, even—and especially—as they slowly search for their words.
- Reacting politely to others' mistakes.

On learning a foreign language

- Language acquisition is a gradual process and, like a sport or a musical instrument, it requires regular practice.
- It is strongly recommended to watch and listen to as much Spanish as possible (films, tv, radio), even when comprehension is low or nonexistent. An hour a day is ideal, but even a few minutes a day can be beneficial.
- Classes will be predominantly Spanish-only. There may be moments where English will be used (communicating activity instructions, etc.).
- Some key phrases:
 - « No comprendo. »
 - « Repita, por favor. »
 - « Qué significa _____? »
 - « Cómo se dice _____ en español? »
- The instructor will introduce **repetition exercises** with the expression « Repite/Repetan » and when requesting **answers** will say « Responde/Respondan ».
- Other expressions we will be using in class :
 - « Escuchen »
 - « Lean »
 - « Observen »
 - « Escriban »

3. Compositions. There are **2 compositions (2 drafts and 2 re-writes)**. Length: 7-10 lines, double-spaced, 1-inch margins, and font size 12. There will be **two versions** of each composition. **The first version will be corrected by the instructor, and handed back to the participants who will follow the corrections and comments to rewrite the final version. Please hand-in your composition in printed form.** An electronic version (Word, PDF) may also be requested.

4. 1 Oral performance. Participants will select one topic related to some of the featured and present one talk on their selected topic.

Your oral presentation needs to be original, done in your own words and focus on the reason you selected your topic. It is as much about you as it is about the selected topic.
