### ***Hunger in America—An Ongoing Scandal***

**Jim Weill**

**Friday, October 29**

**1:30-2:30 PM** (via Zoom)

Jim Weill has had a 50-year career as a leading anti-poverty and social justice advocate. After law school, Jim worked at the Legal Assistance Foundation of Chicago as Director of Federal Litigation and Special Impact Projects. He served as counsel in several cases on plenary review in the US Supreme Court, arguing two of them; and oversaw the Foundation’s attorneys on dozens of class action and impact cases on Social Security, Medicaid, Food Stamps, other public benefits, immigration, and challenges to discrimination against racial minorities, women, and children born out of wedlock. From 1982 to 1998, Jim was Program Director and General Counsel at the Children’s Defense Fund, where he played a lead role in Medicaid expansions, enactment of the Children’s Health Insurance Program, creation of the Vaccines for Children Program, and three major expansions of the Earned Income Tax Credit. Jim was President of the Food Research and Action Center (FRAC) from 1998 until his retirement at the end of 2019. During that time FRAC led efforts to expand participation and improve benefits in key anti-hunger and anti-poverty programs, with particular emphasis on SNAP, school lunch and breakfast, afterschool and summer food programs, childcare food, WIC, and income supports like the refundable Child Tax Credit.

### ***Virtual Tour Series: The Heart of DC - Part 2***

**Tammy Belden**

**Tuesday, November 9**

**3:30-4:30 PM** (via Zoom)

Join OLLI for a second virtual tour in a series of illustrated talks, led by Tammy Belden, on our capital's "historic center" and its most iconic memorials and sites.

In July, we began with the western end of the National Mall covering such sites as the Lincoln, Viet Nam Veterans, and Korean War memorials. We now progress down the Mall to its center: the Washington Monument, the White House, and the Jefferson, discussing smaller and lesser known spots along the way. Did you know that the White House was originally considered riverfront property; that the Washington Monument is sited approximately 390 feet from its original planned location; and that the original statue in the Jefferson Memorial was made of plaster painted a bronze color? Although you may already be familiar with many of these facts, we will cover some controversies, engaging anecdotes, and facts that you may not have heard!

**No registration is required. The Zoom link will be emailed to all members the morning of the event.**

## Knowledge Management Survey for Retirees

Researchers at NC State University hope to learn about your recent retiree experience via anonymous electronic survey. Those of you who have retired within the last five years are asked to consider participating in this quick five-minute [survey](#). Your experience as a recent retiree may be helpful to employers to improve their ability to manage future retirements and the knowledge transfer process. The survey will include a few questions about you and then ask about your experience. The survey has been reviewed by the NC State University Institutional Review Board (IRB). The summary results may be shared in sum or part in academic and business publications to help employers improve. The last date for participating in the survey is November 30.
